PROFESSIONAL SUMMARY

Aspiring **Data Scientist** with hands-on experience in **Python, SQL, Machine Learning, Deep Learning, and Power BI**. Skilled in **data analysis, data preprocessing, EDA, feature engineering, model building, and data visualization**. Passionate about learning new technologies and using data to solve real-world problems through AI and machine learning.

TECHNICAL SKILLS

Power BI (Dashboard Creation • DAX • Data Modeling) | **Excel** (Pivot Tables • VLOOKUP • Data Cleaning) | **Python** (Pandas • NumPy • Data Analysis) | **SQL** (Joins • Queries • Data Extraction) | **Scikit-learn** (Regression • Classification • Model Evaluation • Feature Engineering) | **Tensorflow** | **keras** | **Machine Learning** | **Deep Learning** | **Natural Language Processing (NLP)** | **Matplotlib** | **Seaborn** | **Git** | **Github** | **Jupyter Notebook**

INTERNSHIP EXPERIENCE

Eagletfly Solutions, *Artificial Intelligence Intern*

Patel Nagar, New Delhi

- Preprocessed and analyzed datasets using Python and EDA techniques.
- Assisted in developing Machine Learning and Deep Learning models.
- Worked with TensorFlow, Keras, and Scikit-learn for model training and evaluation.

PROJECTS

Uber Fare Prediction using Machine Learning & Deep Learning

Technologies: Python, Scikit-learn, TensorFlow, Keras, Pandas, NumPy

- Developed Machine Learning and Deep Learning models to predict Uber ride fares using historical trip data.
- Performed data preprocessing, feature engineering, EDA, and evaluated models using MAE, RMSE, and R² Score.

Titanic Survival Prediction

Technologies: Python, Scikit-learn, Pandas, Matplotlib, Seaborn

- Built classification models to predict passenger survival using Logistic Regression, Decision Tree, and Random Forest.
- Performed data preprocessing, feature engineering, EDA, and evaluated model performance.

EDUCATION

Eagletfly Solutions, *Artificial Intelligence*

2026

Eagletfly Solutions, *Data Analytics with Python*

2025 – 2026

MDU University, *Bachelor of Computer Applications (BCA)*

2019 – 2022
